

Equipment Type:	Siemens TB5000 Gas Turbine
Item:	Used Core Engine (Gas Generator and Power Turbine)
Quantity:	One (1)
Description:	Gas Generator is still a complete assembly. The Power Turbine has been stripped into sub assembly format during the removal process.
Power Rating:	3.4 – 3.8 MW ISO rating
Combustion System:	Standard combustion adapted for Water Injection
Fuel Type:	Natural Gas
Serial Number:	Gas Generator: TB5000/TB135 Power Turbine: TB5000/TB434
Condition:	The core engine was removed from a previously reliably running generator package. The package the core engine was removed from had completed in excess of 200,000 hours however it is not known if this core engine had completed the full duration of the packages lifecycle. Full service history from the last 100,000 hours of operation.
Current Location:	Gowrings Continental BV Netherlands
Price:	150,000 Euros, Ex Works Netherlands
Availability:	Immediate
Viewing:	By Arrangement Only
